Education

2019- 2023

ABES Engineering College

Bachelor of Technology

E.C.E. - 7.8 C.G.P.A.

2017 - 2018

Central Academy Sr. Sec

School affiliated to C.B.S.E.

CPCM - 77.6%

2015- 2016

Central Academy Sr. Sec

School affiliated to C.B.S.E.

CPCM - 9.8CGPA

Expertise

- HTML / CSS / Javascript
- React.js ,Next.js ,TailwindCs ,ReactStrap
- Node.js/Express
- MongoDB/Mongoose
- OOP's/DSA
- Github/NPM
- C++ ,Verilog

Certification

I am a Electronics and Communication engineer , with keen interest in Web Tools and development, passionate about solving real-world problems with technology. Eager to tackle new challenges and open to exciting tech. opportunities.

Experience

Full Stack Developer Intern July-2023 - Sep-2023

Easyhai Online I Noida, Uttar Pradesh, India

- Created dynamic, responsive web applications using React.js, ensuring exceptional user experiences.
- Produced complete doubt solving module backend services to front end increasing student traffic on website by 20%..
- Enhanced Invoice generation system, reducing generation time to 99%.
- Prioritizing task as per need and on time reporting to Senior Developers
- .Developed robust server-side applications , RESTful API's ,socket.io ,Cron ,Excel.js.

Tech Stack :TailwindCss , Bootstrap, React.js ,Next.js, Node.js (Exceljs ,puppeteer ,Socket.io),

MongoDB (Aggregation).

Projects

- Chat application with real time
- Overcame real-time data sync & DB optimization challenges and integrating socket.
- Future: User authentication, personalized profiles, content recommendation.
- (**Skills : Tech: React.js, Node.js, MongoDB, Socket.io, Apis**)

Link : <https://github.com/meuk761999/chatWiithSocket>

- To-Do list app using MERN Stack.
- Features-Create , View ,update ,delete and maintains list until deleted..
- Practically used to list down and track my day to day task and deleting after done.
- Future: User authentication, personalized profiles, content recommendation.
- (**Skills : Tech: React.js, Node.js, MongoDB, API's**)

Link : <https://github.com/meuk761999/todo>

- User Login and authorization using system with a Sign Up and Sign in view.
- User authentication, secure encrypted password storage using bcryptjs.
- Complete MVC(Model View Controller) architecture and Passport library.
- (**Skills : Next.js, Node.js, MongoDB, Passport.js, MVC**)

Link : <https://github.com/meuk761999/nodeAuthByPassport>

- Blog Movie page for top movies an different OTT platforms with official banner.
- Titles ,ratings and genre information, with links for respective OTT platform.
- Future: Database Integration and real time fetching and updation of list.
- (**Skills : React.js.js ,HTML ,CSS**)

Link : <https://github.com/meuk761999/Movies-react-app>

- Spotify Clone Music player replica.
- Play ,pause ,Next ,Forward functionality with progress bar and a list of songs
- Future: Database Integration and amazon AWS S3, real time fetching of songs .
- (**Skills : HTML ,CSS ,JavaScript ,JavaScript's WebAudio API**)

Link : <https://github.com/meuk761999/Spotify-Clone>

- Tic Tac Toe game.
- Two Player game with reset functionality and create an intersection line on a win.
- (**Skills : HTML ,CSS ,JavaScript**)

Link : <https://github.com/meuk761999/Spotify-Clone>

Extra-Curricular

- Member of D2C club as Exam head for designing Question set for college level competitions.
- Student Ambassador @ AICTE-IDEA-Lab to train new students on general engineering tools.

Softskills

- **Teamwork**-collaborate with colleagues, contribute to group efforts, and resolve conflicts within a team
- **Adaptability**- adapt to changing circumstances, learn quickly, and thrive in dynamic work environments.
- **Problem-solving**-Solved 110+ problems on LeetCode.
